

Welcome to ScreenMentor

40%*

productivity loss occur through context switching

*Source: APA: [Multitasking: Switching costs](#)

Not convincing enough?

1200x

a day productivity loss at work occurs through context switching

9%

loss of an employee's annual work time.*

*Source: [Harvard Business Review](#)

Our Why

We wanted a better way - a true assistant that works like a smart colleague sitting beside you, seeing what you see, understanding your challenges, and helping right when you need it, just by asking out loud.
